Dear Member

You may be aware that SAICA has been engaging with the National Association of State Boards of Accountancy (NASBA) and the American Institute of CPAs (AICPA) for some time to get our CA(SA) designation recognised by them. This process has been under way since 2009, with the submission of our formal documentation taking place in 2011. We are currently enquiring about the status of this process and whether any further information is required.

There have recently been some developments in this regard and consequent further action is now emerging from the USA. [Read](#) the recent communication from the NASBA Chairperson, Ken L. Bishop.

We shall keep you informed on progress regularly. At this stage we need to allow the legislation comment period on the amendments to the Uniform Accountancy Act to close. Once the final legislation has been passed, then formal communication and logistics will follow.

Regards

Nazeer Patel CA(SA) RA  
Regional Executive: International Members

Mandy Olivier CA(SA)  
Senior Executive: Professional Development
