1. INTRODUCTION

This section is for information purposes only and it must not be included in the actual annual report of the public entity, please refer to the specimen.

1.1. Purpose of annual reports

Annual reports are an integral part of public entities’ reporting. The achievements, performance information, outlook, financial position, and human resources information of public entities for each reporting period are reported in the annual report. The information reported on in the annual report includes the actual achievements for the reporting period in relation to the planned targets and budgets as published in the strategic plan, annual performance plan and budget documents.

Annual reports are tabled in Parliament/Legislatures and it is available to the general public. The publishing of financial and non-financial information of public entities is essential for accountability and, transparency and to improve trust and confidence in government service delivery. The reported information must be accurate and balanced, reporting both the successes and explaining the shortcomings.

Ultimately the characteristics of a quality annual report are that it:

- complies with statutory and policy requirements.
- presents information (both positive and negative) in an understandable and concise manner.

1.2. Purpose of the guide

The guide provides guidance on the non-financial information requirements of the annual report. In other words, the guidance is on all sections of the Annual Report except the Annual Financial Statements (AFS) section. The AFS section is dealt with in a separate guide that is applicable to the legal form of the public entity.

The annual report guide is supplemented by a specimen for annual reports, which a public entity must use to assist in the preparation of the annual report.

Adherence to the format of this guide will enhance public entities’ coverage of all aspects of their activities and financial performance and will promote ease of reference and comparison for users of the annual report.

1.3. How to use the guide

Section 1, Introduction, of this guide provides guidance and clarity with regard to legislation that governs annual reports and general information about annual reports and the framework of this guide.

Section 2, Annual report, of this guide provides public entities with the format of the annual report, structure; details and information that public entities must comply with in their annual reports. Each heading that needs to be disclosed in the annual report has 2 sub-headings in the guide. The 1st sub-heading is the “guideline” which provides the guidance on the information to be reported on. The 2nd sub-heading is the “Format of disclosure” which indicates how the information must be presented in the annual report.

Section 3, Annexures, contains the format of letters and reports that need to be completed by the respective officials and some of these reports are published in the public entity’s annual report.

A specimen of the annual report of a public entity is also included, as Annexure C.
1.4. Applicability of the guide

This guide applies to all schedule 3A and 3C public entities, as listed in the PFMA. All other public entities will utilise their own formats, however if these public entities do not have a format, they could utilise this format as a guide.

Public entities are classified into different schedules based on their nature and level of autonomy. A brief review is provided below.

**Schedule 2**

Schedule 2 entities are referred to as the major public entities and are intended to generate profits and declare dividends. These entities have the most autonomy of all the public entities, as they operate in a competitive marketplace and are run in accordance with general business principles. In terms of section 66(3)(a) of the PFMA, schedule 2 public entities may also borrow money through the accounting authority of that entity, which implies that they also have extensive borrowing powers.

**Schedules 3B and 3D**

Schedule 3B and 3D entities are referred to as government business enterprises. These entities generate income, but may be either substantially self-funded or substantially government funded. As a result, they have less autonomy than the schedule 2 public entities even though they are still run in accordance with general business principles. These entities also have limited borrowing powers.

**Schedules 3A and 3C**

The remaining public entities are classified as schedule 3A and 3C entities. These entities are normally extensions of a public entity with the mandate to fulfil a specific economic or social responsibility of government. They rely on government funding and public money, either by means of a transfer from the Revenue Fund or through statutory money. As such, these entities have the least autonomy.

1.5. Other matters to consider when applying the guide

The following factors should be considered when applying the guide:

- The information contained in section 1: Introduction must not be included in the annual report.
- It is imperative that the financial information contained in the annual report corresponds with the financial information in the audited annual financial statements.
- Additional relevant sections can be incorporated into the annual report at the public entity’s discretion.
- Pictures, graphs and diagrams can be utilised to highlight and improve understanding of information, though excessive use should be avoided.
- The sequence of information in this guide must not be changed
- Reporting requirements that are included in this guide that do not apply to a public entity may be omitted from the annual report.
- Caution must be exercised by public entities concerning the costs of producing the annual reports.
1.6. **Documents to be used in preparing the annual report**

To compile the public entity’s annual report, the following documents should be utilised:

- National Development Plan
- 2019-24 Medium Term Strategic Framework
- Provincial Growth and Development Strategy (where applicable)

2.4 Part B: Performance Information

Guideline

This section of the annual report provides key performance information that demonstrates the public entity’s service delivery achievements.

Performance information is critical to effective management, planning, budgeting, implementation, monitoring, evaluation and reporting of the entity’s impacts and outcomes. Performance information must be available to managers at each stage of the planning, budgeting and reporting cycle to enable them to adopt a results-based approach to managing service delivery. This approach emphasises planning and managing with a focus on desired results, and managing inputs, activities and outputs to achieve these results.

Measuring performance:

- ensures that policy, planning, budgeting and reporting are aligned in order to achieve improved service delivery.
- indicates how well a public entity is meeting its outcomes and impacts, and which policies and processes are working. Making the best use of available data and knowledge to track and report on performance is crucial for improving the execution of government’s mandate.
- facilitates effective accountability, enabling relevant legislatures, members of the public and other interested parties to track progress of government activities, identify the scope for improvement and hold government to account.

Public entities must ensure that there is alignment between the impacts and outcomes in the Strategic Plan, and the associated programme/sub-programme outputs, output indicators and targets in the Annual Performance Plans, and budget related documents.

The performance information must clearly show public entity’s achievements against performance indicators and targets as identified in the Strategic Plans, Annual Performance Plans and budget documents.

2.4.1 Auditor-General’s Report: Predetermined Objectives

Guideline

The AGSA/auditor currently performs the necessary audit procedures on performance information to provide reasonable assurance in the form of an audit conclusion. The audit conclusion on the performance against predetermined objectives is included in the report to management, with material findings being reported under the Predetermined Objectives heading in the Report on other legal and regulatory requirements section of the auditor’s report.

For a user of the annual report, reading the findings of the work performed by the AGSA/auditors on the performance information will be more useful and relevant if it is read with the reporting of the performance information in the annual report.

Format of disclosure

Reference must be made to the paragraph in the Auditor General’s report (Reporting on other legal and Regulatory requirements) published as Part E (Annual Financial Statement’s) of the public entity’s annual report.
2.4.2 Situational analysis

This section must cover the performance of the public entity in its entirety for each of the headings detailed below. Information should not be discussed at a programme level, as this is covered in a separate section “programme performance”.

Service delivery environment

Guideline

In order to assist users of the annual report to gain an understanding of the challenges, successes and other factors that might impact on a public entity’s performance, it is necessary to provide the users with an overview of the context within which the public entity operated and sought to implement its strategic plan and annual performance plan.

The public entity should seek to give a balanced overview of the environment in which it operated during the past year and not merely focus on factors that might be offered as ‘mitigating circumstances’ to support the public entity’s delivery record.

The overview should include:

- commentary on the public entity’s overall performance, outlining its key outputs, particularly relating to services rendered directly to the public
- commentary on the challenges encountered by the public entity when providing the relevant services, and the corrective steps to be taken in dealing with such challenges
- a description of any significant developments, external to the public entity, that may have impacted either on the demand for the public entity’s services or on the public entity’s ability to deliver those services

Format of disclosure

This information must be provided in a narrative form

Organisational environment

Guideline

The annual report should provide readers with an understanding of the organisational challenges and successes experienced by the public entity in the year under review. The aim of this ‘overview of the organisational environment’ is to provide a description of any significant developments internal to the public entity that may have impacted on the public entity’s ability to deliver on its Strategic Plan and Annual Performance Plan e.g. the resignation and/or appointment of key personnel such as the CEO or the CFO, a strike by significant portions of the personnel employed by the public entity, or restructuring efforts, significant system failures or cases of corruption.

Given that these are factors internal to the public entity and therefore ostensibly within the public entity’s control, it would be expected that the public entity gives some indication of any measures that were adopted to mitigate the impact of these events on service delivery.

Format of disclosure

This information must be provided in a narrative form
Key policy developments and legislative changes

Guideline
The public entity should describe any major changes to relevant policies or legislation that may have affected its operations during the period under review or future financial periods. If there have been no changes this must be stated.

Format of disclosure
This information must be provided in a narrative form.

2.4.3 Progress towards Achievement of Institutional Impacts and Outcomes

Guideline
Each public entity should state the impacts and outcomes as per the Strategic Plan and the progress made towards the achievement of the five-year targets in relation to the outcome indicators. The public entity must highlight significant achievements with regard to the contribution toward the 2019-24 Medium Term Strategic Framework and Provincial Growth and Development Strategy (where applicable). Public Entities should comment on any amendments to the Strategic Plan, where applicable.

Format of disclosure
This information must be provided in a narrative form.

2.4.4 Institutional Programme Performance Information

Information for each programme must be provided for each of the headings below. The purpose of reporting on programme performance is to assess the efficiency and effectiveness in implementing the Annual Performance Plan. This will enable the public entity to inform programme planning and improvement for the next financial year, and to encourage programmes to develop strategies to ensure that the entity’s results are realised.

Each programme will have a separate sub-heading.

Description of each Programme

Guideline
- Provide the purpose of the programme
- List the sub-programmes
- List the institutional outcomes that each programme contributes towards according to the Annual Performance Plan

Format of disclosure
This information must be provided in a narrative form.

Outcomes, Outputs, Output Indicators, Targets and Actual Achievements

Guideline
The public entity must report on all tabled Annual Performance Plans for the financial year under review. The minimum requirements below must be adhered to when reporting on each tabled Annual Performance Plan for the financial year under review.
This section must provide a narrative of the significant achievements of targets for the outputs and output indicators for each programme for the financial year under review. The narrative must also provide a summary on how the achievement of targets has contributed towards achieving the entity’s outcomes, which will invariably impact on the strategic priorities of government.

Furthermore, the public entity must comment per programme on its response to prioritising women, youth and persons with disabilities in its service delivery environment, challenges encountered by the public entity when prioritising delivery for these designated groups, and the corrective steps to be taken in dealing with such challenges (where applicable).

A table must be provided where public entities must report on outputs, output indicators and targets for each programme or every sub-programme. There must be a separate table provided to report on each tabled Annual Performance Plan for the financial year under review. The public entity must indicate the date of when the revised Annual Performance Plan comes into effect.

The table must include the following:

- List the outcomes that the programme contributes towards
- List the programme / sub-programme outputs that contribute towards the outcomes
- List programme / sub-programme output indicators
- Provide the audited actual achievement in the previous financial year, which must be consistent with the previous annual reports
- Provide the planned annual targets for the period under review as per the Annual Performance Plan
- Provide the actual achievement for the period under review
- Provide the variance between the targets and actual achievements for the period under review
- Provide reasons for all deviations
- Provide reasons for the instances where outputs, output indicators and targets were removed or amended in the revised and re-tabled Annual Performance Plan.

**Format of disclosure**

The following table must be presented with the relevant information. Include any narratives after the table.

2.5 Part C: Governance

2.5.1 Introduction

Corporate governance embodies processes and systems by which public entities are directed, controlled and held to account. Parliament, the Executive and the Boards of the public entity are responsible for corporate governance.

2.5.2 Portfolio Committees

Parliament exercises its role through evaluating the performance of the public entity by interrogating their annual financial statements and other relevant documents which have to be tabled as well as any other documents tabled from time to time.
